OFFICE OF LIBRARY DEVELOPMENT
AND SERVICES
MINNESOTA DEPARTMENT OF EDUCATION

Services of the Office of Library Development and Services

The Office of Library Development and Services offers consultant, advisory and guidance services to librarians, library boards, public officials, and citizen groups interested in libraries and library development. The staff also administers the Minnesota program for public library development and multi-county multi-type library cooperating with state and federal funds appropriated for these purposes.

The Minnesota Library for the Blind and Physically Handicapped, located in Faribault and serving eligible users throughout the state, is part of the office, as is the Interagency Resource and Information Center, located in St. Paul and serving staff in six government agencies.

Inquiries concerning services and programs should be directed to Director, Library Development and Services, 440 Capitol Square, 550 Cedar Street, St. Paul, MN 55101.

William G. Asp, Director	(612) 296-2821
Alan D. Lewis, Assistant Director and Supervisor of Library Development	(612) 296-2821
Pat Tupper, Supervisor , Interagency Resource and Information Center	(612) 296-0595
Myrna Wright, Supervisor , Minnesota Library for the Blind and Physically Handicapped	(507) 332-3279
Janice Feye-Stukas, Public Library Specialist	(612) 296-2821
Nowell D. Leitzke, Adult and Media Services Specialist	(612) 296-2821
Suzanne Mahmoodi, Continuing Education and Library Research Specialist	(612) 296-2821
Roger Sween, Multitype Library Cooperation Specialist	(612) 296-2821
Darlene Arnold, Senior Librarian , Library and Information Science Library	(612) 296-2821

Note: Only two issues of Minnesota Libraries are now produced each year, with each issue combining two numbers.

MINNESOTA LIBRARIES is published quarterly by the Office of Library Development and Services, Minnesota Department of Education
Correspondence concerning this publication should be addressed to the Editor, at

Minnesota Public Library Statistics 1989

Introduction by
William G. Asp and Janice Feye-Stukas

This issue of *Minnesota Libraries* provides descriptive data about Minnesota public libraries in 1989. Each year, pursuant to Minnesota Statutes 134.31, Subdivision 4, every legally established public library and public library system in Minnesota provides an annual report to the Office of Library Development and Services. It is from the 1989 annual reports that the data reported here has been compiled.

The Population Served

This year the population served was calculated using the Office of State Demographer's 1988 population estimates, which was published in August, 1989. The decision to use the updated population estimates was made for two reasons. First, the more current population estimates would make the per capita calculations more realistic; and second, because of the requirement of the National Center for Education Statistics to use the most recent population estimates for reporting public library data through the Federal State Cooperative System.

The 1988 estimates show that the overall population in Minnesota increased 5.6% since 1980. The population served by public libraries increased 6.4% to 4,248,652. This represents 98.6% of the state's population. The reason for the greater increase in the population served was first of all because of the huge growth in population in the metropolitan area (9.8% as opposed to 2.9% in greater Minnesota), and secondly there were two new areas with public library service in 1989: rural Cottonwood County and rural Mahanomen County.

Of the population served by public libraries, 99% now participate in the regional library systems.

The number of public library buildings in the state increased from 343 in 1988 to 346 in 1989. Two of the new libraries are branches of the Great River Regional Library, one in Rockford and one in St. Michael (called the Crow River Area Library). The third library is a new library in the city of Pelican Rapids.

Of the 346 public library buildings, 223 are branches of a city, county or regional library; 21 are headquarters or main libraries of a city, county,

or regional library; and 102 are single building library administrative units. The number of bookmobiles remained constant at 24.

The number of library administrative units remained at 136. The 31 library administrative units with branches or bookmobiles serve 88.1% of the state's population, while the 102 single building library administrative units serve 11.9% of the state's population.

Use of Public Libraries

The use of public libraries increased again in 1989 although on a per capita basis, because of the use of updated population figures, the circulation per capita rate remained the same (8.7). Charged circulation increased 5.5% over 1988 to an all time high of 37,078,682. All but one of the twelve regions of the state reported increases.

Increases were also noted for the libraries reporting in-library use of library materials (up 12%); reference transactions (up 12%) and library attendance which is a gate count of persons coming into the library (up 50%). The later increase can be somewhat attributed to the fact that for the first time, all libraries reported this measure.

Public Library Staff

The number of total staff working in public libraries increased by 53 full time equivalents (FTE) or 2.73%, from 2,004 in 1988 to 2,057 in 1989. Of the 53, 36 were in the Twin Cities metropolitan area. Total staff increases of 28.6 in six greater Minnesota regions were offset by decreases of a total of 11 in four of the regions.

The number of professional librarians with a Masters Degree from an American Library Association accredited program is assumed to have remained relatively constant statewide, with the small losses in greater Minnesota being balanced by small increases in the metropolitan area. Actual figures are not available because, for the first time, professional staff levels were computed on a FTE basis rather than total number. This change was made to correspond with the requirements of the Federal State Cooperative System for Public Library Data.

In 1988, when total numbers were used, 72.4% of the professional librarians in public libraries were in the metropolitan area. When calculated on a FTE basis, the percentage of the professional librarians in the metropolitan area is only 70%. This can be attributed to the greater number of professionals working less than 40 hours per week in the metropolitan area.

Public Library Collections

The actual number of items in public library collections in 1989 is estimated to have increased about 1%, which is again at a far lower rate than the use of libraries would indicate is needed. The exact number and percent of increase in the total materials in libraries are not possible to compute because of a change in the way the some specific items have been counted and also because of the way that the total number was computed.

In 1988, 2,300,000 or 13.3% of the total number of items reported for public library collections were "other library materials" (maps, charts, vertical files materials, etc.) at the Minneapolis Public Library and Information Center (MPLIC). In 1989, MPLIC reported only 2,000,000 of these same items. Because no other library has similar items which are reported in the same way, and also because this one item can so dramatically affect the statewide totals and is incompatible with national standards, this figure is no longer included in the statewide library totals.

The number of books in Minnesota public libraries increased by 121,035 or 1.09%. The increase statewide came despite the fact that St. Paul Public Library reported having 194,980 fewer books in 1989 than in 1988. Other print materials increased 3.8%. However, the number of periodical subscriptions dropped 7.6% or 1,934 subscriptions below from the 1988 level.

The number of microforms reported also dropped even more dramatically, 61.79% or 476,399 items. All of this drop can be attributed to the metropolitan area libraries which reported 485,673 fewer microforms. The lower number was as a result of a more accurate method of counting.

As in recent years, the total number of audiovisual items overall continued to increase, up 14.3% over 1988, even through individual categories of a-v items experienced decreases.

The item that accounted for the biggest percentage increase was compact discs. In 1988 libraries reported having 13,907 compact discs; in 1989, there were 29,383 compact discs, an increase of 111%. Libraries also continued to acquire increasing numbers of audio cassettes, which increased 38% from 117,884 in 1988 to 163,263 in 1989. The number of multimedia kits also grew substantially on a percentage basis, up 28% over 1988, from 25,776 to 33,140. Other audio

visual items showing significant increases were audio-discs (up 9.9%), microcomputer software (up 9.46%) and toys/games (up 7.2%).

The items for which significant decreases in collections were reported include 8mm films (-79.8%), 16mm films (-44.9%), film strips (-25.4%), and art prints (-19.7%). The number of slides declined only slightly (-1.4%).

The Sharing of Library Resources

The inter-library sharing of library materials continued to increase with many more requests (15.8%) reported as filled within the regions, and fewer (-5.1%) reported filled by the state level resources. In 1989, 260,836 requests were reported to have been generated, an increase of 23.4% over 1988. Sources within the regions filled 67.6% of these requests or 176,442. Of the remaining requests, 78,193 were forwarded to the Public Library Access Network (PLANET), MINITEX, and others. PLANET filled 21,628, MINITEX filled 24,099, and other sources, such as multitype library systems, filled 8,794.

Special Services of Public Libraries

The number of special services provided by public libraries to special populations also increased in 1989, after drops in most categories in 1988. The special services which had the greatest percentage increase in the numbers of libraries providing the services were community information and referral, (86 libraries, up 62.2%); services to day care providers (130 libraries, a 32.6% increase); special services to ethnic populations (14 libraries, up from 11 or 27%); services to migrant workers (7 libraries, 1 more than in 1988).

The numbers of libraries providing the other special services remained the same or showed a slight increase in the number of libraries providing the service: books-by-mail (4 libraries), literacy (95 libraries), services to the homebound (160), institutionalized (147), and handicapped (97).

Public Library Funding

Funding for public library operations continued to increase at an even faster rate in 1989 than in previous years, up 7.36% over 1988 to an all time high of \$82,891,653. The greatest increases (8.34%) came from local government sources. In 1989, this funding amounted to \$71,336,431 and accounted for 86.06% of the total.

State funding increased 5.69% to \$5,235,293, although its share of the total funding dropped slightly (from 6.42% of the total in 1988 to 6.32% in 1989). Federal funding dropped slightly to \$1,089,919, a 4.4% decrease from 1988. Statewide, federal funding amounts to 1.31% of the total, down from 1.48% in 1988.

The total amount that public libraries received from "Other" sources also decreased a slight .78%, down to \$5,230,010. However, the drop in other income came primarily because of a huge drop in the amount of money libraries received from gifts. In 1988, libraries reported receiving \$1,232,848 in gift funds, but in 1989, the total statewide was only \$867,920, a 29.6% drop. Other categories showing a decrease in income include vending machines (down 1.76%) and miscellaneous (down 13.98%).

All other categories of revenues increased: grants (up 5.93%), fines/fees (up 9.39%), interest (up 21.3%), sales (up 19.78%) and insurance (up 1291%—from \$5,975 in 1988 to \$83,130 in 1989). The huge increase in insurance was primarily because of a settlement received by the Kitchigami Regional Library for the fire at the Wadena Public Library.

Not included in the operating receipts reported by public libraries were the in-kind or indirect receipts/expenditures made by others (primarily local governments) on behalf of libraries, but not included in the library's budget. In 1989, \$3,028,445 was reported in this category, an increase of 2.85% over what had been reported in 1988.

Public Library Expenditures

In 1989, statewide public library expenditures increased 7.55%, from \$74,638,475 in 1988 to \$80,271,277 in 1989. The percent of the total expenditures that public libraries spent on personnel decreased from 66.74% in 1988 to 66.25% in 1989. The smallest increases in expenditures came in personnel costs, up only 6.76% over 1988. Of this total amount, actual salary expenditures went up the least, only 6.43%; however fringe benefits expenses went up 9.05%. Expenditures for custodial personnel went up 4.64%.

Total expenditures on library materials also increased, up 7.92%, from \$13,174,522 in 1988 to \$14,435,112 in 1989. The largest dollar increase was for books, up \$755,776 or 8.59%. Expenditures on books as a percent of the whole increased from 11.79% in 1988 to 11.90% in 1989. The largest percentage increase in expenditure categories were for "other print" (e.g., pamphlets, government documents, etc., up 15.12%) and "non-print" (e.g., audio-visual, etc., up 15.35%).

Even though the number of subscriptions dropped, the expenditures for subscriptions increased 6.40% to \$1,188,047. The percentage of the total expenditures for subscriptions decreased slightly from 1.50% in 1988 to 1.48% in 1989.

The only category of materials expenditure to decrease was extended access (on-line database searching, etc.), which dropped 11.61% from \$632,864 in 1988 to \$559,373 in 1989.

All other expenditures in total increased 8.89%, from \$13,174,522 in 1988 to \$14,345,112 in 1989.

The largest dollar increase were for building operation and maintenance, up from \$3,968,941 in 1988 to \$4,166,801 in 1989, a 4.99% increase. The second largest dollar increase and the largest percentage increase was for repair and maintenance of furniture and equipment, up \$178,915 or 62.14%, from \$287,936 in 1988 to \$466,851 in 1989.

Other expenditure categories with double digit percentage increases include staff development (up 45.85%), audits (up 25.66%), public relations (up 14.37%), travel (up 13.36%), postage (up 12.92%), delivery (up 10.09%), and office supplies (up 10.06%). All other expenditures had very small increases both in terms of dollars and percent of increase.

The only areas for which there were decreases in expenditures were in the area of automation, down 1.74% or \$39,130, and for miscellaneous, down 40.79%. Both of these figures can be primarily attributed to a tightening up of accounting practices to assure assignment of expenditures to the appropriate category.

Capital expenditures were up 34.92% over 1988, which had been down 34.09% from the previous year. The libraries with the greatest capital expenditures include St. Paul, Hennepin County, Ramsey County, and Detroit Lakes.

Arrangement and Content of Tables

The arrangement and content of tables is similar to reports in previous years. The Summary table provides totals for each regional public library system and for the unaffiliated public libraries. Totals for the state are shown in this table.

The following pages show data of all individual libraries and bookmobiles. They are listed in alphabetical order first by system name, then by the name of the branch for consolidated systems, or by the name of the member library administrative unit for federated systems. System totals are at the beginning of each section.

Again, all per capita amounts were calculated using population data from the 1988 state demographer's estimate. For individual library and library administrative units, per capita amounts were calculated using the population or appropriate percentage of the population of all the governmental units providing funding for the library.

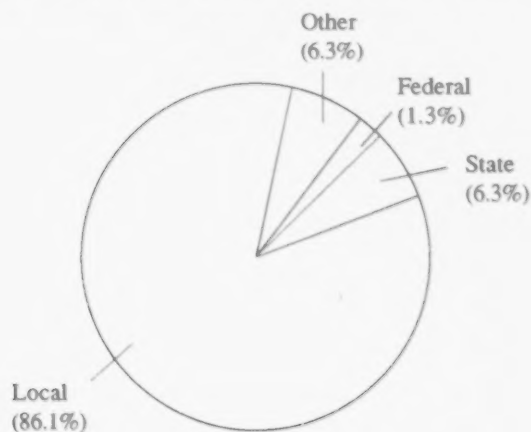

Definitions of column heading, abbreviations and other terms can be found on pages following the tables along with the list of other reports with may be requested from the Office of Library Development and Services. Contact Jan Feye-Stukas for more information.
